# WINE SHOWCASE

*The ideal solution  
for wine display  
and conservation*

**Decanter** is the new line of showcases for the wine display and conservation, created by Emainox in respect of the wine maintenance principles.

It recreates the typical ideal conditions of a traditional wine cellar.

Thanks to the right setting of temperature and humidification, the aroma and the organoleptic features of your wine will be unchanged, allowing wine conservation at the ideal conditions.

Moreover, the wide glass surface offers a great visibility to your product making it more attractive in the location where Decanter is positioned.
