

CUBE

BeOut is the new Emainox products range that meets the most recent market needs, offering solutions suitable for a complete and safe service even in outdoor environments.

With social distancing, the possibility of serving the customer outside often becomes a priority.

BeOut includes products that best fit this concept, such as **Cube** line and its smaller modules, only 85 cm long and 75 deep. The small sizes and the pivoting wheels allow easy movements and positioning, as well as offering the possibility of combining two or more elements with different functions for any service need. Closed display cases on customer side and gantries with front glass guarantee maximum hygiene and safety of the food on display.

In addition, elements are aesthetically customizable as a wide proposal of finishing allow you to choose your preferred style.

Front glass

Gantries with front glass for **higher hygienic safety**.

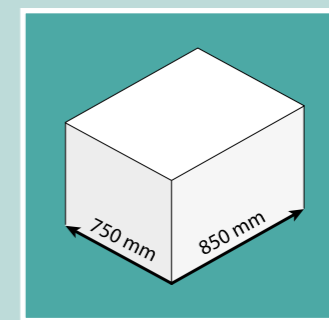

Elements on wheels

Elements mounted on wheels for **easy movement** and positioning. Two of them are equipped with brakes for a **perfect stability** during service.

Closed display case
