

FRIGOBAR

The new BeOut range includes products that meet the most recent market needs, offering comfortable solutions for a complete and safe service even outdoors.

As well as the Cube line, there is **Frigobar**, perfect for keeping drinks cool, both in kegs and in bottles, and to serve them easily.

The bar module can be fully configured to meet all needs, it is possible to choose between refrigerated compartments with drawers, stainless steel or glass doors, hopper modules and many other things. The pivoting wheels also allow easy movement and positioning both inside and outside the bar.

Product quality and functionality guarantee a highly professional bar service.

Refrigerated compartments

Refrigerated **modular elements** with door or drawers for keeping **drinks** and **beer kegs**.

Elements on wheels

Modules equipped with wheels for **easy movement**, two of which with brake for **safe positioning** during service.

Refrigerated tank

Useful refrigerated tank to keep **drinks fresh** before serving.

Glass door

Hinged glass door on the refrigerated compartment to make **products visible** and give an **elegant aspect** to the line.

Working top

Rear upstand on the stainless steel worktop.
